

Shanghai Dofiberone Composites Co., Ltd.

FRP Trench Channel and FRP + SS + Cast Iron Cover

FRP WATER DRAIN DITCH

Main component	High strength composite resin, glass fiber, other enhanced auxiliary materials
Processing technology	High temperature molding
Implementation standard	CJ/T121-2000、CJ/T211-2005、GB/T 23858-2009
Product characteristics	According to the use of different materials with ditch cover plate, resin cover plate, stainless steel gap cover plate, cast iron cover plate
Application field	Widely used in city square, landscape engineering, sports venues, large amusement venues, high-end housing areas, etc
